Navien High-Efficiency Condensing Heating Boilers

Smarter Living Environment Partner

Navien...

A world leader in high-efficiency boiler technology brings

more innovation and

performance

to today's homes

Today Navien is the market innovator in condensing boilers, combi-boilers and water heaters. As a global leading boiler maker, Navien proudly delivers leadership, dependability, design, green technology, social responsibility and customer service to over 30 countries worldwide. This assures world-class quality and comfort in every home and business.

NHB Series

NFB-H Series

Two amazing choices

NHB boilers

The total package in space-saving condensing boilers with our durable dual stainless steel water tube heat exchangers.

NFB-H boilers

The most advanced condensing fire tube boilers in the industry, and now with more heating capacity for any size home.

NFB-H series

high capacity

condensing fire tube boilers

Totally reinventing fire tube boiler technology for better home heating and now with even more performance

- Space saving design — up to 80% smaller than traditional floor standing boilers
- Energy efficiency 95.0% — Energy Star certified
- Patented stainless steel fire tube heat exchanger — resists corrosion for longer life
- Advanced intuitive controls for easy set up, adjustable heating capacities and troubleshooting
- Natural or LP gas (field convertible)
- Optional NaviClean™ magnetic filter for boiler and entire system protection
- Optional NaviLink® Wi-Fi remote control

NHB series ultra compact condensing water tube boilers

The perfect blend of innovation and features packed into one small compact wall-hung boiler

- Available in 4 sizes to match any size home
- Compact space saving design
- Energy efficiency 95.0% — Energy Star certified
- Two stainless steel heat exchangers — resist corrosion providing longer life
- Total control — freeze protection, all boiler set up, operations and troubleshooting available at your fingertips
- Natural or LP gas (field convertible)
- Optional NaviClean™ magnetic filter for boiler and entire system protection
- Optional NaviLink® Wi-Fi remote control

 **NAVIENT**

Smarter Living Environment Partner

Before

After

Sleek wall-hung design uses up to 80% less space than other boilers. Also 1/2" gas piping and PVC venting saves installation costs.

Bulky inefficient floor standing boilers are old school... Navien high efficiency condensing **space-saving** boilers are the smarter systems

Lower energy bills, easier on the planet

Navien condensing stainless steel heat exchangers recover extra heat that would be lost in non-condensing boilers. The result is a reduction in energy consumption, lower CO₂ emissions and low exhaust temperatures allowing the use of less expensive venting materials such as Schedule 40 PVC.

Credits and rebates

There are a variety of energy efficiency credits and rebates available. To learn more about options in your area visit Navieninc.com.
